Treasure's Report-At this time, the band budget is \$2359 short of budget. Please send in your fair share payments. Parents were reminded that the county only gives us \$5 per student for our budget, so the rest comes from our fair share payments.

It was explained that the band boosters run the concession and further explained how credits toward fair share are earned. Parents were encouraged to let us know what is convenient for their schedules and we will work around it and also that if they were not going to be able to work, please let us know. Tanya Gentry asked for anyone that did not get their hoodie in correctly to see her so that it can be fixed or if anyone had any last minute orders. Another reminder for Winter at the Beech was given. The competition will be on March 5-6. Please be prepared to help. Committees will begin soon. A few parent concerns were broached on the loss of several drum line members and also dealing with the Winter guard try outs only being for people that are in the guard during marching season. Parents suggestions included trying to find out why we were losing percussion members by asking former members. Mr. Miller and Mr. Clark answered questions regarding these subjects.

A motion to dismiss was made, moved, and seconded.
